A Symposium

On

'Best Practices in Degree Colleges for Quality Enhancement'

26th March (Monday), 2018

Venue

1st Floor, Conference Hall (L-102)

Institutional excellence in higher education is the aggregate of the best practices followed in different areas of institutional performance. Acquisition of quality and excellence is the greatest challenge faced by all higher education institutions. Best practices, the practices which add commendable value to an institution and its various stakeholders, are considered as reliable benchmarks or standards of quality. The best institutions are those which widely use them.

The National Assessment and Accreditation Council (NAAC) is advocating the best practices benchmarking approach for quality enhancement in higher education. The best practices as benchmarks help institutions to find their anchor for self-improvement. The said symposium sets the stage for a discussion on the identification, sustenance, dissemination and adaptation of best practices and their transference from one system to the other.

The Symposium would help identify benchmarks and also concrete instances of proven quality-facilitative outcomes. Rather than merely compiling the best practices as stated by the HEIs, the NAAC would like them to be shared which would add commendable value to its functioning and provide evidence for the success of the practice. The said symposium is expected to facilitate the realization of that aspiration.

The Symposium hopes to stimulate the academic environment by providing a platform for discussion on Best Practices of accredited institutions and thereby effecting a transfer of the same for the mutual benefit of all. We look forward for your active participation in the symposium. IQAC Coordinators, Members of IQACs, Principals and Vice-Principals are invited to this event.

Participants will present a best practice/s established by their respective institutions, in the format prescribed by NAAC; duration not to exceed 15 minutes.
Selected Best Practices will be published in a book (with ISBN number) to be released by the IQAC, in June, 2018.
