

An Intellectual property (IP) is the expression of ideas, information and knowledge. IP includes not only discoveries and inventions but also music, literature and other artistic works, as well as words, phrases, symbols and designs.

Intellectual Property Rights (IPR) are the legal rights protecting the owners of IP. The first owner of IP is normally either the person who invents, authors or designs the IP, or his/her employer (depending on the contractual arrangements governing his/her work). Commercial exploitation of the IP can occur directly by the owner of the IP, or by licensing the IP to be used by other companies.

By striking the right balance between the interests of innovators and the wider public interest, the IPR CELL aims to foster an environment in which creativity and innovation can flourish.

Vision:

To provide a platform to students and faculty to acquaint them with different types of Intellectual Property available in India and training and awareness about the registration process of all types of IP.

Mission:

To Create and Promote Awareness and provide guidance to Teaching faculty, Non Teaching Faculty, Students, Scholars on the Approaches and Practices Regarding Intellectual Property Rights and Obligations and Legal Requirements.

Objectives:

- To create an awareness about IPR for faculties and students of the PCACS.
- To impart training on future endeavours regarding copyrights and patent filing processes.
- To conduct workshops, seminars, orientation programmes and training courses on IPR.
- To create an opportunity among students and faculties for Product development and Commercialization.

Functions:

- To organize IPR awareness programs/workshops/seminars for students and faculties where they can interact with the experts in the fields regarding their problems.
- To identify and enrich the novelty/uniqueness of the projects that can be patented or registered for copyrights.
- If the work is novel and patentable then assisting the inventor(s) for filing patent on the work with the help of Patent Attorneys and experts.
